

Using Bitmoji with Google Classroom

What is a Virtual **Bitmoji Classroom**? A **Bitmoji** classroom is a virtual **classroom** where educators can deliver content to pupils in a fun and engaging way. ... Teachers can even organize images in their own "**classroom**" so that they hyperlink out to external sources.

Bitmoji classroom

Join the craze and have a Bitmoji classroom!

This one was made in Google Slides, you can add lots of different things and hyperlink them to different resources like videos or webpages or different slides etc.

To share just the presentation with the kids on the URL of your Google Slides change the bit where it says **edit** to **present** and then share the new hyperlink.

If you want to hide some slides, click on slide and select skip slide.

Slides Hyperlink

Use the keyboard shortcut Control K to hyperlink an object on the slide. Choose "Slides in this presentation" to hyperlink to another slide. Make sure you click on "Apply" when hyperlinking to another slide.
